

The Esus Group - Gourmet Nuts

Our Specialty Nut manufacturer has produced some of the most incredible flavor combinations on the market today. They are not satisfied with simply flavoring a nut and calling it finished, rather they strive to come up with natural formulations that surpass anything you've tried before. Their honey covered nuts, like cashews, peanuts, almonds and pecans, are infused with REAL honey. They use only the finest ingredients for any of their flavored nuts or nut combinations. Real top grade chocolate, actual chipotle peppers, sea salt, real cracked pepper and more. Not only are their ingredients top class, they are also the freshest available. We challenge you to try our products, compare them to your former favorites and see if our gourmet nuts and mixes don't beat everything you've had before!

Honey Roasted Peanuts

Honey Roasted Pecans
