

Ice Coffee and Ice Latte

Consumers crave coffee and have made it a \$30 billion industry! The Dakota broad range of milk-based ready-to-drink coffee and latte beverages are made with a full-flavored coffee extract for the best flavor. At Dakota, we also offer the best of both worlds in terms of the coffee and milk that are used. We are not limited to one source or type of coffee, so customers can create their perfect beverage, whatever your profile—you name it, we can source it.

We are unique in our use of fresh producer milk, straight from the farm, sourced within a 14-mile radius and never more than 4 hours old, for the freshest result. With our expertise in stabilizing the delicate emulsions found in milk-based coffee products, you are ensured a high quality, shelf stable, profitable product. Our coffee and latte beverages are all available in 9.5 and 13.7 oz. glass bottles, and in 8, 11 and 15 oz. aluminum cans.

COLD BREW COFFEE

Consumers love cold brew, the latest trend in coffee, and credit it with having a naturally sweeter taste, lower acidity and higher level of caffeine than traditional hot-brewed coffee. Meet the rapidly growing consumer demand in your market for the latest coffee beverage with Dakota cold brews, sourced from whatever coffee region or bean you choose.
